

COVID-19 Testing

A negative COVID-19 test is required by some destinations before you land—and getting tested before & after you travel may also help reduce quarantine requirements in some destinations. There are many places to get tested—including a number of airports, as well as in the comfort of your home.

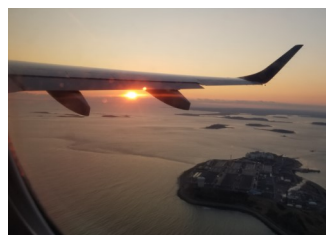

HEPA Filters and The Latest Research

Did you know that a recent study shows that the air inside our planes is typically as safe as the air in your own home? Join JetBlue President and COO Joanna Geraghty as she shares some of the latest research on airplane air and travel safety—and how we're airing on the side of Safety from the Ground Up.

JetBlue Arrives in Guyana

JetBlue announced it has launched service between New York John F. Kennedy International Airport (JFK) and Georgetown, Guyana's Cheddi Jagan International Airport (GEO), with the first roundtrip flight arriving back in New York on December 12, 2020. The new service launches with four times weekly service on JetBlue's Airbus A321neo aircraft.

Partner with JetBlue to Enhance the Sustainability of your Travel Program

JetBlue has followed through on its commitment to go carbon neutral on all domestic flights. Earlier this year, JetBlue became the first major U.S. airline to commit to this critical and measurable step toward reducing its contribution to global warming, and is now the first U.S. airline to achieve carbon neutrality on all domestic flying.
